DEAR PARTICIPANTS, DEAR FACULTY

We cordially welcome you to the 6th edition of our Basel Elbow Course and to our beautiful city of Basel! The Basel university celebrated its 550th birthday in 2010 and boasts one of the oldest medical faculties in the world. Paracelsus and Vesal were two of the most renowned researchers and teachers of our faculty.

We are proud to host again a course with participants from many different countries, and we will strive to live up to your expectations! And it is a great honor to be able to count on more than a dozen faculty members and elbow surgery experts from around the globe. This course will feature an interactive format between faculty and participants and vice versa. Please do not refrain from asking all your questions, your neighbor might have the same question. In elbow surgery, there are no “dumb” questions!

Follow and connect via social media: @baselelbowcourse on Instagram. Share your thoughts and ideas by us using our hashtag #baselelbowcourse.

We look forward to seeing you at our upcoming Basel Elbow Course!”
